

Peer Evaluation Form¹

Name: _____ Group: _____

Please use the following form to evaluate the contributions of your teammates to the group project during the course. Please fill in the names of your teammates in the spaces below and give them the scores that you believe they earned. You can distribute 10 points per teammate (if you are in a group of five people, you can distribute 40 points etc.). You don't distribute points to yourself. If you believe that everyone contributed equally to the group project, you should distribute the points equally (10 points/teammate). Please be fair when distributing the points - if someone in your group didn't contribute adequately, give them fewer points. If someone worked harder than the rest, give that person more than 10 points but 15 points maximum.

Please respect the following rules for the peer evaluation:

- You cannot give anyone more than 15 points.
- You do not have to assign all of your points.
- Be fair when distributing the points.
- If you distribute more/less than 10 points to a teammate you should provide an explanation.

Group members Score

Name Student 1: _____ Score: _____

Name Student 2: _____ Score: _____

Name Student 3: _____ Score: _____

Name Student 4: _____ Score: _____

Name Student 5: _____ Score: _____

Please indicate why you gave someone less than 10 points.

Please indicate why you gave someone more than 10 points.

If you were to assign points to yourself, what do you feel you deserve? Why?
